## Member Survey of Expertise & Equipment

At our Lnaugural meeting it was decided that we should gain an understanding of both career and astronomy skills, expertise and equipment that our members have in order to get the best from our Club's development, fundraising, public relations, etc, as well as our interactions with the public for our viewing nights.

*[Please note – the information you supply is totally at your own discretion and only for Club use to get the best utilisation of our members' varying skills and areas of expertise.]*
